PERSONAL SUMMARY

React and React Native Developer with 4+ years of experience building scalable web and mobile applications. Specialized in modular component architecture, secure routing, real-time integrations and performance optimization. Experienced in end-to-end development and client-facing delivery.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React JS, React Native
Backend: Node.js
Database: MySQL
Real-Time: WebSocket
Tools & Version Control: Git
UI Frameworks: Bootstrap, MUI

EXPERIENCE

Web App Developer II

Charles Technologies – Chennai | January 2024 – Present

Develop and maintain scalable React-based web application for production use with modular component architecture and reduce code duplication, optimize performance. Collaborate with backend team to integrate REST APIs.

UI/UX Developer

Avons Global Solutions Private Limited – Chennai | July 2021 – September 2023

Designed and developed responsive user interfaces, turning wireframes into functional web pages using React and Bootstrap. Created reusable components and supported backend integration to ensure seamless user experiences.

PROJECTS

MA Quick Scanner — Lottery Ticket Management System.

Architected a scalable React-based Admin Panel with modular reusable components.
Implemented secure role-based authentication and protected routing.
Reduced UI redundancy by designing reusable layout and form components.
Coordinated directly with client stakeholders for on-site deployment support.

Gamer Exchange — Real-Time Gaming Platform.

Designed and developed Admin Panel and web application aligned with mobile version.
Integrated WebSocket for real-time odds updates, enabling instant UI refresh without reload.

Optimized dynamic rendering to handle continuous real-time data updates efficiently.
Structured scalable component hierarchy to support future feature expansion.

ThinkFlick — *AI-Based Educational Application.*

Developed full-stack application using Windsurf AI-powered IDE.
Designed and managed MySQL database schema for structured academic data management.
Leveraged AI-assisted development tool to accelerate feature implementation and debugging.
Integrated Gemini AI for dynamic MCQ generation based on user grade and subject.
Implemented leaderboard logic with real-time point updates.

Purchezz — *A Parcel Tracking & Order Management System.*

Developed a responsive web application for parcel tracking and order lifecycle management.
Translated wireframes into structured, scalable code.
Developed responsive and reusable codes.

Medify — *Doctor & Patient Information Management System.*

Enhanced the existing application by redesigning UI/UX for improved usability.
Developed a fully responsive landing page aligned with modern design standards.
Collaborated with the design team to ensure user-friendly interfaces.

Sacrament — *Retail Book Distribution Tracking System.*

Designed dynamic data tables using DataTables for efficient record handling.
Built form-driven workflow using React Hooks for structured data input.

EDUCATION

B.E. Electronics and Communication,
Sri Eshwar College of Engineering, Coimbatore January 2018
GPA: CGPA: 6.63

HSC
State Board Education, Sri Sowdeswari Vidyalaya, Coimbatore May 2014
GPA: 77.05%

SSLC
Matriculation Board Education, Sri Sowdeswari Vidyalaya, Coimbatore May 2012
GPA: 86%
